

Sustainable Development Goals

The R&B Food Supply Public Company Limited

The R&B Food Supply Public Company Limited and its subsidiaries (“The Company”) place importance on supporting the Sustainable Development Goals (SDGs) in line with the United Nations (UN) guidelines, developed to be guidelines for sustainable development in 3 areas: Environment, Society and Good Governance and in line with the Sustainable Development Policy. The Company has therefore set goals that are linked to the Sustainable Development Goals of the United Nations, consisting of 6 main goals, as follows:

Sustainable Development Goals

SDGs	Sustainable Development Goals
	<ul style="list-style-type: none"> Continuously develop food safety quality systems and obtain certification from various agencies both nationally and internationally. Develop various health products, such as low-sugar products, sugar-free products, and low-salt products, etc.
	<ul style="list-style-type: none"> Promote the use of technology and innovation to restore water sources and treat wastewater. Promote the use of water in production processes or activities to maximize benefits and manage water resources efficiently.
	<ul style="list-style-type: none"> Conduct business responsibly on the basis of sustainable development to be a part of creating stability for the country's economic system. Give importance to treating Employees equally and appropriately since legal employment, providing welfare and benefits including occupational safety. Develop its Employees to have appropriate skills and abilities that are consistent with the company's business operation to create career advancement along with the growth of the Company. Conduct human rights work according to the framework of the SMETA (Sedex Members Ethical Trade Audit) SEDEX System.

SDGs	Sustainable Development Goals
12 RESPONSIBLE CONSUMPTION AND PRODUCTION 	<ul style="list-style-type: none"> Promote resource management that is worthwhile and maximizes benefits with the concept of 3Rs: Reduce, Reuse, and Recycle. Promote the Circular Economy system to create sustainable production and consumption throughout the value chain of the company's business operations. Promote the reduction of industrial waste or waste to landfill to zero (Zero Waste to Landfill) to have the least impact on community health and the environment
13 CLIMATE ACTION 	<ul style="list-style-type: none"> Aim to be a carbon neutral organization by 2050 (B.E. 2593). Conduct operations and activities to reduce and offset greenhouse gas emissions effectively.
16 PEACE, JUSTICE AND STRONG INSTITUTIONS 	<ul style="list-style-type: none"> Promote the organization to increase its competitiveness to grow steadily and sustainably under good corporate governance practices. Manage the organization efficiently together with ethics, transparency and accountability.

This goal Reviewed and approved by the 1/2568 Corporate Social Responsibility and Sustainable Development Committee Meeting on 14 March 2025. In order that, it will be effective from 15 March 2025 onwards.
